## Evening Brief

Date: Saturday July 28<sup>th</sup> , 2018

---

### Weather Summary

Hot and dry conditions will continue Sunday into early next week. W to NW winds of 15-30 mph with afternoon RH 10-15% across southeast Idaho, western Wyoming and eastern Utah...down to near I-70. Overall thunderstorm coverage will be decreasing Sunday & Monday as the high pressure ridge becomes centered over the Great Basin, with continued hot and dry conditions throughout most of the geographic area. Next chance of critical lightning will be Tue-Wed, with moisture moving northward along the Nevada/Utah border from south to north, and pushing into much of Idaho, where fuels are the driest. This will be followed by strong winds and drier conditions.

---

### Preparedness Levels & Great Basin Fire Activity (from WFDSS)

Great Basin	4	Moderate Initial Attack Activity
National	5	New Fires and Acres: 19 fires for 31,367 acres; 80,176 acres large fire growth

---

Great Basin Fuel Status [interactive link](#) (Use Edge, Chrome or Firefox browsers)

**Fuels and Fire Behavior advisory has been issued for [Nevada](#)**

### Fuels/Fire Potential

ERC's are still near or below the 50th percentile across the southern third of Nevada, Utah, into the AZ Strip, but even there, drier pockets are beginning to emerge, along with an occasional lightning holdover. ERC's are mainly in the 70th to 90th percentile across Northern parts of NV and UT and even drier, across Idaho, where many stations are now at or above the 90th percentile. Wyoming ERC's also steadily rising into the 60th-70th percentiles. Live Fuel Moisture levels across most areas are near late July normals, and grasses are cured in just about all areas, except the highest elevations above 6500 ft. in Idaho and Western Wyoming.

### Resources:

#### Aviation within the Great Basin

- o 0 VLAT's, 5 LATs, 4 CL-415
- o 20 SEATs, 2 Fire Bosses
- o 11 Type 1 Helicopters / 11 Committed
- o 11 Type 2 Helicopters / 11 Committed
- o 21 Type 3 Helicopters

#### Crews Committed within the Great Basin

- o 11 IHCs Committed / 0 Available
- o 34 T-2 IAs Committed / 0 Available
